

During the course of its activity, the Belarusian company [Weldmet LLC](#) has successfully established itself in the market of metalworking services, having qualitatively fulfilled a large number of orders in the food industry, mechanical engineering, electrical equipment production and many others. The success of our company is due to the well-coordinated work of highly qualified personnel and the availability of modern equipment.

We carry out the entire work cycle: from processing technical specifications to logistics, without resorting to the services of third-party organizations, which significantly saves customers' money and time.

Our activity areas:

- Manufacture of products from stainless steel, carbon steel and aluminum (large metal structures for industrial facilities). As well as the manufacture of small parts (mechanical engineering, railway transport, medicine, etc.).
- Production of metal products and parts (blanks) according to the customer's technical documentation of non-standard parameters.
- Production of metal items for decoration, furniture, bar stations, shelving, etc.
- Drainage systems made of stainless steel (tanks, sewer drains, channel grates, trays, etc.)

Laser cutting services

Laser cutting is carried out on new equipment, a Yawei-cky CFFP-3015 fiber-optic laser with a power of 3000 W.

- Table size 1500mm x 3000mm;
- Maximum thickness up to 20mm (carbon steel); up to 12mm for stainless steel and up to 8mm for aluminum;
- When executing orders, we use both our own metal and the metal provided by the Customer.

Sheet metal bending services

- Bending is carried out on a new high-precision press – Yawei PBH110;
- Maximum workpiece length is 3000mm;
- Maximum workpiece thickness is 4mm;
- Large selection of tools.

In addition to our main activities, we also provide the following services:

- Welding (TIG / MIG / MAG / laser welding) – carbon, stainless steel, aluminum;
- Stonewash (effective process of preliminary cleaning of the surface of workpieces from various contaminants, rust, molding sand, scale);
- Delivery.
