For this reason, the aws bridging guarantee, which has been available since 12 March 2020, will be significantly expanded and simplified with immediate effect on behalf of the Austrian federal government.</p> <p>The following extensions are of central importance:</p> <ul style="list-style-type: none"> - Waiver of the charging of handling and guarantee fees - No planning calculations or business plans required - No loan collateral required - Freelance activities are now eligible for guarantee - Guarantees can also be used to defer existing credit lines - A fast-track procedure will be introduced to enable guarantees to be given immediately. <p>All extension measures will take effect immediately and will also affect applications for support that have already been submitted. The exception is the accelerated procedure, which will be available in the next few days.</p> <p><u>https://www.aws.at/aws-garantie/ueberbrueckungsgarantie/</u></p> <p>For the time being, the provisions of state aid law must be complied with, but a change at EU level is likely to be imminent.</p>
